San Mateo County Measure A Oversight Committee
Thursday, January 28, 2016, 6:30 p.m.
College of San Mateo, College Heights Conference Room, Building 10, Room 468
1700 West Hillsdale Boulevard, San Mateo, CA 94402

AGENDA

1. Pledge of Allegiance 
   Chair Daniel Quigg

2. Call to Order and Roll Call 
   Chair Daniel Quigg

3. Public Comment
   (This item is reserved for persons wishing to address the Committee on any Committee-related matters not otherwise on this agenda, and on any listed agenda items other than those Matters Set for a Specified Time or on the Regular Agenda. Members of the public who wish to address the Committee should complete a speaker request form. Speakers are customarily limited to two minutes.)

4. Swearing-In of New Committee Member 
   Justin Mates, Deputy County Counsel
   Naomi Patridge, Representing District 3

5. Motion to Approve Minutes of the Meeting of December 3, 2015 
   Chair Daniel Quigg

6. Accept the responses to Questions from December 3, 2015 Measure A Oversight Committee Meeting 
   Reyna Farrales, Deputy County Manager

7. Accept the responses to Questions from January 14, 2016 Performance Measures Subcommittee Meeting 
   Reyna Farrales, Deputy County Manager

8. Motion to Approve Measure A Oversight Committee Annual Report and Submit to Board of Supervisors 
   Chair Daniel Quigg

9. Setting Date of Next Committee Meeting 
   Chair Daniel Quigg

10. Adjourn 
   Chair Daniel Quigg

Meetings are accessible to people with disabilities. Individuals who need special assistance or a disability-related modification or accommodation (including auxiliary aids or services) to participate in this meeting, or who have a disability and wish to request an alternative format for the agenda, meeting notice, agenda packet or other writings that may be distributed at the meeting, should contact Sukhmani Purewal at least 2 working days before the meeting at (650) 363-1802 and/or spurewal@smcgov.org Notification in advance of the meeting will enable the Committee to make reasonable arrangements to ensure accessibility to this meeting and the materials related to it. Attendees to this meeting are reminded that other attendees may be sensitive to various chemical based products.

Public records that relate to any item on the open session agenda for a regular meeting are available for public inspection. Those records that are distributed less than 72 hours prior to the meeting are available for public inspection at the same time they are distributed to all members, or a majority of the members of the Committee. The Committee has designated the office of the County Counsel, located at 400 County Center, Redwood City, CA 94063, for the purpose of making those public records available for inspection.
TO: Honorable Board of Supervisors
FROM: Don Horsley, Supervisor

SUBJECT: Appointment of Naomi Patridge to the Measure A Oversight Committee

RECOMMENDATION:
Appointment of Naomi Patridge to the Measure A Oversight Committee.

BACKGROUND:
Naomi Patridge is a former Half Moon Bay City Council member and longtime community member. Her tenure lasted 25 years on the City Council and she served as Half Moon Bay Mayor seven times.

DISCUSSION:
The San Mateo County Measure A Oversight Committee has the mandate of objectively evaluating expenditures drawing from the funds collected through Measure A. It is made up of members representing a broad cross-section of San Mateo County residents. The addition of Naomi Patridge to this Committee provides valuable representation for Half Moon Bay and the Coastside.

FISCAL IMPACT:
None
December 24, 2016

Naomi Patridge  
naomihmb@sbcglobal.net  

Subject: Appointment to the Measure A Oversight Committee

Dear Naomi Patridge:

The Board of Supervisors is pleased to confirm your appointment to the Measure A Oversight Committee representing District 3. We appreciate your willingness to devote your time to this important task and hope you will find your efforts rewarding.

You are required to take an Oath of Office which must be administered by a member of the Board of Supervisors, the Clerk of the Board of Supervisors or a Deputy of said Clerk. Your Oath of Office will be administered by Justin Mates, Deputy County Counsel at the next Measure A Oversight Committee meeting on Thursday, January 28, 2016, 6:30 p.m. at the College of San Mateo, College Heights Conference Room, Building 10, Room 468, 1700 West Hillside Boulevard, San Mateo, CA 94402.

Sincerely,

Alicia García, Deputy Clerk of the Board of Supervisors

Attachment: Certified Appointment Board Memo

c: Commission File
San Mateo County Measure A Oversight Committee
Thursday, December 3, 2015, 6:30 p.m.
College of San Mateo, College Heights Conference Room, Building 10, Room 468
1700 West Hillsdale Boulevard, San Mateo, CA 94402

MINUTES

1. Pledge of Allegiance

2. Call to Order and Roll Call

The meeting was called to order by Honorable Dan Quigg at 6:30 p.m.

Present:
Commissioners: Honorable Daniel Quigg, Wing Yu, Sam Hutkins, Mindy Pengel, Carolyn Clarke, Manuel Ramirez, and Tom Ledda

Staff: Reyna Farrales, Deputy County Manager; Justin Mates, Deputy County Counsel; Jim Saco, Budget Director; Mary-Claire Katz, Management Analyst; and Sukhmani S. Purewal, Agenda Administrator

Absent:
Commissioners: Jamie Monozon and Lynne Shubunka

3. Public Comment
(This item is reserved for persons wishing to address the Committee on any Committee-related matters not otherwise on this agenda, and on any listed agenda items other than those Matters Set for a Specified Time or on the Regular Agenda. Members of the public who wish to address the Committee should complete a speaker request form. Speakers are customarily limited to two minutes.)

Speaker:
Martin Fox, Belmont Resident

4. Swearing-In of New Committee Member: Tom Ledda, Representing District 5

Sworn in by Justin Mates, Deputy County Counsel

Speakers:
Justin Mates, Deputy County Counsel
Tom Ledda, Representing District 5

5. Approve the Minutes of the Meeting of January 29, 2015

Page 1 of 3
Speakers:
Honorable Daniel Quigg

7 RESULT: Approved [Unanimous]
MOTION: Sam Hutkins
SECOND: Manuel Ramirez
AYES: Quigg, Yu, Hutkins, Pengel, Clarke, Ramirez, Ledda

6. Motion to Accept 2014-15 Annual Audit of Measure A Sales Tax Receipts and Results of Agreed-upon Procedures On Measure A Spending

Speakers:
Honorable Daniel Quigg
Juan Raigoza, County Controller

7 RESULT: Approved [Unanimous]
MOTION: Tom Ledda
SECOND: Manuel Ramirez
AYES: Quigg, Yu, Hutkins, Pengel, Clarke, Ramirez, Ledda

7. Performance Measures

7.1 2014-15 Measure A Performance Report

Speakers:
Honorable Daniel Quigg
Reyna Farrales, Deputy County Manager
Manuel Ramirez
Wing Yu
Sam Hutkins

7.2 Motion to Create Ad Hoc Committee on Performance Measures

Speakers:
Honorable Daniel Quigg

7 RESULT: Approved [Unanimous]
MOTION: Wing Yu
SECOND: Sam Hutkins
AYES: Quigg, Yu, Hutkins, Pengel, Clarke, Ramirez, Ledda

Members of the Ad Hoc Committee on Performance Measures are:
- Sam Hutkins
- Wing Yu
- Honorable Dan Quigg
- Jamie Monozon

8. Motion to Approve 2015-16 Committee Work Plan

Speakers:
Honorable Daniel Quigg
7 RESULT: Approved [Unanimous]
MOTION: Manuel Ramirez
SECOND: Tom Ledda
AYES: Quigg, Yu, Hutkins, Pengel, Clarke, Ramirez, Ledda

9. Election of Chair and Vice Chair (effective next committee meeting)

Speakers:
Honorable Daniel Quigg
Carolyn Clarke
Manuel Ramirez
Sam Hutkins

Motion to reelect Daniel Quigg as the Chair

7 RESULT: Approved [Unanimous]
MOTION: Manuel Ramirez
SECOND: Carolyn Clarke
AYES: Quigg, Yu, Hutkins, Pengel, Clarke, Ramirez, Ledda

Motion to elect Sam Hutkins as the Vice Chair

7 RESULT: Approved [Unanimous]
MOTION: Carolyn Clarke
SECOND: Daniel Quigg
AYES: Quigg, Yu, Hutkins, Pengel, Clarke, Ramirez, Ledda

10. Setting Date of Next Committee Meeting

The next Measure A Oversight Committee meeting was scheduled for Thursday, January 28, 2016 at 6:30 p.m. at the College of San Mateo, College Heights Conference Room, Building 10, Room 468, 1700 West Hillsdale Boulevard, San Mateo, CA 94402

7. Adjourn

The meeting was adjourned at 7:12 p.m.

Meetings are accessible to people with disabilities. Individuals who need special assistance or a disability-related modification or accommodation (including auxiliary aids or services) to participate in this meeting, or who have a disability and wish to request an alternative format for the agenda, meeting notice, agenda packet or other writings that may be distributed at the meeting, should contact Sukhmani Purewal, Deputy Clerk of the Board, at least 2 working days before the meeting at (650) 363-1802 and/or spurewal@smcgov.org. Notification in advance of the meeting will enable the Committee to make reasonable arrangements to ensure accessibility to this meeting and the materials related to it. Attendees to this meeting are reminded that other attendees may be sensitive to various chemical based products.

Public records that relate to any item on the open session agenda for a regular meeting are available for public inspection. Those records that are distributed less than 72 hours prior to the meeting are available for public inspection at the same time they are distributed to all members, or a majority of the members of the Committee. The Committee has designated the office of the County Counsel, located at 400 County Center, Redwood City, CA 94063, for the purpose of making those public records available for inspection.
1) For Redi-Wheels, what is the on-time performance? Have heard that they don’t turn anyone away, but are often late to pick up so people miss appointments.

On-time performance target is 90%. “On time” is defined as customers being picked up no later than 20 minutes after the scheduled pick-up time. For trips to adult day care programs with which SamTrans has an agreement, the on-time performance is based on arrival at the agency within a designated window.

To improve on-time performance, SamTrans has adjusted the paratransit scheduling software. The paratransit contractor adjusted driver shifts to better reflect demand. In addition, the paratransit contractor has implemented some custom software to help improve on-time performance.

SamTrans is also continuing to evaluate ways in which to educate their customers about service policies.

2) On technology infrastructure/IT projects, does the County have one person who is responsible for creating partnerships with local tech companies (like Google)?

The County’s Chief Information Officer (CIO) is responsible for working to build partnerships and relationships with companies like Google, Facebook, etc. The CIO holds quarterly meetings to brainstorm with private industry thought leaders about partnerships, and meets with companies on a weekly ad hoc basis.

3) On homelessness, do we know how many people are turned away because the shelters are full?

No. The Human Services Agency (HSA) will be working with partners to capture this data in the Homeless Management Information System (HMIS). Most of the shelters for individuals and families are at or near capacity on most days. Shelter is generally accessed through a referral from one of eight Core Service Agency contracts. These contracts are with community-based nonprofits or city-operated entities located throughout the county to provide emergency and basic needs assistance to residents.

In January 2016, there are 21 families on the waiting list for shelter. There is not a waiting list for single adults seeking shelter, as shelter is accessed via a first come, first served structure, so individuals go to a Core Service Agency to see if there is a space available in any of the shelters.

During winter months, the County implements its inclement weather program. Through the inclement weather program, on days that are impacted by winter weather, shelter capacity is increased in order to provide more shelter beds to homeless individuals. This
year, the County has worked with partners to increase capacity by adding an additional 17 beds (80%) to the inclement weather program.

4) For East Palo Alto homeless shelter (WeHOPE), there is a requirement to be there by 3:00pm every day to secure a bed. There should be an exception for those who have work and cannot leave work early—can beds for people with jobs be set aside so they don’t run the risk of losing their jobs?

Yes, shelters work with each client to support each client’s needs, including maintaining employment. Shelters, including Project WeHOPE, Maple Street, and Safe Harbor, do generally have requirements for residents to be in the shelter by a designated time each night, but clients who are employed and work evening or night hours are given permission to return later than the typical time, to allow them to return after the end of their work schedule.

In addition, to clarify, at Project WeHOPE there is not a requirement to be at the shelter by 3 pm; residents generally must be at the shelter by 7 pm, unless they have made arrangements with staff to return later for an approved reason.

5) How do we measure our performance on ending homelessness when people move in and out of the county? Are we coordinating with neighboring counties—how does this work?

The County’s Human Services Agency (HSA) uses the national Department of Housing and Urban Development (HUD) definition of homelessness and the One Day Count to track progress. The key measure of the number of homeless people in a community is the One Day Count. This count of sheltered and unsheltered homeless people is conducted every other year. Through the work of many volunteers, this count covers the entire county in an effort to count each individual who is homeless on the night of the count. The count uses residency on the date of the count; all individuals in the county on that date are included. Although some people move out of the county, others move into the county, so the most complete picture of homelessness is this One Day Count. In addition, the methodology for the count is based on guidance from the federal government and remains relatively consistent, which allows for comparisons over time and also comparisons with other communities throughout the country.

The most recent count was conducted in January 2015, and the report from that count can be found online at [http://hsa.smegov.org/2015-one-day-homeless-count](http://hsa.smegov.org/2015-one-day-homeless-count). The next One Day Count will be conducted in January 2017.

Counties do not coordinate across jurisdictional lines. Collaboration occurs within the county and between public and non-profit agencies in neighboring counties. For individuals and families who are residing in San Mateo County and then relocate to another county, service providers work to connect them to services in their new county, including those clients in receipt of public assistance benefits. Each county maintains its own Homeless Management Information System (HMIS), so these systems do not track movement between counties.
There are additional metrics that help a community understand its progress on decreasing and ending homelessness. Examples of these metrics are decreasing lengths of stay in shelters and increasing exits to permanent housing. Through the homeless system redesign, which is currently underway with expected completion in March 2016, the County is examining outcomes on these and other measures to better understand the homeless population and progress toward ending homelessness by 2020.

6) **How many special needs children are being served with Measure A funds?**

There are fourteen active caseloads in the Behavioral Health and Recovery Services (BHRS) division of the Health System, each serving between 1 and 65 children that are directly attributable to Measure A funding. The total number of children being served is 415 or 32% of the total BHRS youth caseload.

7) **What has been the impact of Proposition 47 on the mentally ill population?**

Proposition 47, which was approved by voters a little over a year ago in November 2014, reduced a number of non-violent drug and property-related crimes from felonies to misdemeanors. It has changed sentencing law as compared to pre-Prop. 47 when Measure A was approved (November 2012). Compared to pre-Prop 47 the impact for people who are seriously mentally ill and are arrested for what is now a misdemeanor offense will not lead to incarceration, thus affording the opportunity to keep them connected to their community based treatment and support services.
San Mateo County Measure A  
FY 2014-15  
Performance Measures Subcommittee Meeting  
Report-Back on Subcommittee Questions/Requests

The responses provided in this report-back have been incorporated into the final FY 2014-15 Measure A Performance Report.

**Technology Infrastructure**

Provide a breakdown of the average cost per wifi site (Oversight Committee member did simple equation to come up with $300,000/site, based on amount allocated to this program). What is the cost of retrofitting within this amount? In looking at the total amount spent and number of sites installed, the cost is about $300,000 per site. For those that don't have a technical background, is this cost range typical? What’s being done to ensure we’re not spending too much?

The Public Wifi sites do not cost $300,000/site. The budget for the Public Wifi project is $1,000,000. At a high level, by dividing that $1,000,000 allocated for FY 2014-15 and FY 2015-16 by the total number of sites (26), we get an average site cost of $38,461.

The primary factor in the cost of implementing Public WiFi at a site is the square footage of the facility (interior and or exterior). For example the Pescadero system covers the outdoor area from the Community Church at the North end of Stage Road all the way down to the IDES Hall at the far South end of Stage Road.

Other factors include the number of Access Points necessary to cover the interior of a facility and or the outdoor geography, the physical makeup of the buildings construction, and the difficulty of cabling the Access Points, and the cost of the construction necessary to install the internet connectivity at the site. The monthly cost of the Comcast connectivity is a fixed cost and is encumbered for three years from implementation. The cost of maintenance and support for the systems implemented is included in the vendor contracts and is encumbered for a full three years.

The process of determining appropriate cost is managed by:

- Vetting each site to ensure it meets the basic requirements of the Public WiFi program which are providing connectivity to the un-served and under-served, providing educational opportunities, promoting economic development, and offering improved access to County services.
- Developing detailed Requests for Quotes and distributing them to multiple pre-qualified vendors.
- Holding mandatory on-site pre bid conferences for all vendors to ensure all proposals can be compared equitably.
- Formally reviewing the vendor’s site proposals to ensure they meet our intended outcomes.
• Comparing proposed new site cost to previously implemented sites of similar size and configuration.

Over spending is controlled by:

• Working closely with each vendor on each site implementation to ensure everyone has the same expectations.
• Performing on-site oversite of the vendor’s work throughout the installation, implementation, testing, and activation stages.
• Holding pre-construction and post implementation reviews.

For performance measure on # of times the Open Data Platform is accessed, how does this number relate to the Hackathon, if at all? That is, what is the pre-Hackathon number vs. the post-Hackathon number?
Hack SMC accessed 72% more rows of data than average for 2015 via the website. It performed 27% below average via application programming interface (API).

Request to add performance measure as a subset of the existing one, showing access to datasets pre- and post-Hackathon as a way to show targeted use of the datasets in the Open Data Portal.
Agreed.

**County Fire Engine**
Request to include a table showing engine replacement schedule by fiscal year with estimated cost per engine or vehicle.
Staff are working with County Fire on this table which will be included for FY 2015-16 year-end reporting.

Purchases of staff and chief officer vehicles have gone more smoothly than fire engine purchases. County Fire has taken delivery of three staff vehicles as of November 2015, with one additional vehicle on order. Two Type I Fire Engines and 1 Type II Water Tender which were ordered in FY 2013-14 will be placed in service by December 31, 2016. An additional two Type I Fire Engines, 1 Type II Water Tender, and one Type I Ladder Truck have been ordered and will be placed in service by June 30, 2017.

County Fire continues to follow the 10-year purchase plan as developed in FY 2013-14. Due to the complexity of the fleet, this plan is continually evaluated and adjusted based on critical need. With the upturn in the economy, fire engine manufactures have received large orders of apparatus and their buildup time has increased. Due to the complexity of designing the appropriate specifications for fire engines and vendor building schedules, delivery of some apparatus has been delayed. Staff has re-evaluated the vendor selection and is currently working on a new specification that will speed up the delivery time once the purchase has been made.
Staff will make purchases in the next fiscal year that will bring the replacement schedule back on track and within budget. A schedule of Fire’s 10-year purchase plan will be made available on the Measure A Dashboard at https://performance.smcgov.org/measure-a

Add performance measure to show whether replacement is happening in line with the schedule.
Agreed.

Public Safety 911 Dispatch Center and Motor Pool Project
Is the County planning to provide 911 dispatch services for police/law enforcement, as it does now with EMS/ambulance and Fire?
The new dispatch center is being designed with the capacity to provide 911 public safety dispatch services for additional police and law enforcement agencies in the county, over time, as it does now with ambulance and fire.

What is the delay for the final relocation of the Redwood City Motor Pool operations, which according to the last update, was scheduled for September 2015? Was this a typo in the narrative—should it be 2016?
Plans for relocating the Redwood City Motor Pool operations to Grant Yard are underway, with estimated completion date of May 2016.

Parks
When will the Parks projects that are on hold because of the drought, be completed? One of the members referenced Junipero Serra Park being still in progress—provide status update. Junipero Serra Park has four Measure A funded projects which involve repairs to the roadway, DeAnza area footbridge, and drop-in picnic tables, as well as the purchase of a security system. All four projects are expected to be completed by this fiscal year-end.

Although Parks has 50 out of 76 Measure A Parks maintenance projects still pending completion, most of these projects are expected to be completed by fiscal year-end. However, few of these projects, approximately 15, may not be completed in time and may have to be rolled over to next fiscal year. Most of the delays are due to weather conditions, availability of staff resources due to needs in other Non-Measure A projects, and the recent rotation of Park Ranger IV’s (Supervisors) throughout the Park system.

Prevention & Early Intervention - At-Risk Children
Add both # and % for all measures.
The # / % for measures has been added. Those with a missing data point will be collected for the next performance update.

Request to have Behavioral Health and other County departments involved in this initiative to come to a future Measure A Oversight Committee meeting.
The County Manager’s Office is communicating with these departments to present at future Measure A Oversight Committee meetings.

For all measures with decrease in target performance, explain why the target is decreasing. This information has been added in footnotes in the final report.

What is the target measuring for “#/% of truancy, suspensions and expulsions [data provided from schools]” at 100% or 75%? Data is based on Parent Project students that have improved behavior related to truancy, suspensions, and expulsions; this was a 15 household sample out of 101 parents graduated and collected at a 6 month follow up.

For performance measure, “#/% of youth ages 15-29 screened, assessed, and treated for bipolar disorder”—is 29 a typo for 19, or is the age really 29? 29 is correct.

Coastside Medical Services
Add in both #/ for all measures. This has been added to the Oversight Committee Report performance table.

Request to detail how many patients come for mammograms versus cholesterol levels. This has been added to the Oversight Committee Report performance table.

Coastside Response Coordinator
What is being done to make sure that there is radio interoperability during disasters? Oversight Committee member commented that there is no ability for Coastside to communicate by radio to other parts of the county. The current ham radio system does provide direct radio communications between the Coastside and the Operational Area EOC at OES Headquarters in Redwood City. They use it whenever they do a large exercise or when they activate the Coastside EOC for a real emergency (like the Dec. 2014 storms).

Request to add measure showing # of CERT members who are bilingual? The Coastside Response Coordinator is sending an email to his entire Coastside Emergency Corps volunteer team to poll them for bilingual ability. The Corps includes CERT, ham radio, Large Animal Evac Group, Red Cross Shelter workers, and medical personnel.

School Resource Officers
List of schools that the SROs are at.

Redwood City
1. Clifford Magnet
2. Connect Charter School
3. Everest High School
4. Fair Oaks Elementary
5. Garfield Charter
6. St. Francis Holy Family School

**El Granada / Montera**

1. El Granada Elementary
2. Farallone View Elementary
3. Wilkinson School (Private)

**Define Big 5 in narrative.**

Big 5 definition was added to Oversight Committee Report narrative. It is a standardized set of school emergency guidelines created by the San Mateo County Office of Education with extensive input from the San Mateo County Sheriff’s Office and educators. The Big 5 is a standardized set of school emergency guidelines created by the San Mateo County Office of Education with extensive input from the San Mateo County Sheriff's Office and local police departments, Office of Emergency Services and educators. They include Shelter in Place, Secure Campus, Lockdown/Barricade, Drop-Cover-Hold On, and Evacuate.

**SamTrans**

**How many Redi-Wheels vehicles are in the County?**

At last count, there are 79 Redi-Wheels branded vehicles of various types. In addition, Serra Cab provides supplemental service using their own vehicles – many of which are wheelchair-accessible. The Redi-Wheels branded vehicles include a mix of small wheelchair-accessible “cutaway” buses and minivans owned by the District, as well as some sedans owned by the contractor.

**North Fair Oaks**

**What are the most common types of code compliance violations in North Fair Oaks?**

Dumping of trash on public and private property along with blight complaints from single family home's front yards are the most common complaints. Non-permitted structures such as illegal structures, fences and other construction where no permit was obtained and the structures are not to code are other common violations.

**For the Dine & Dialogue Series, specify in narrative that these are held at local restaurants to emphasize how these are contributing to the community. What are the costs and attendance levels at these events? How is success measured?**

The summer Dine & Dialogue Series in 2015 was held at the Fair Oaks Health Center and food was provided by a local catering business in North Fair Oaks, Redwood Catering. There was no charge to attend the event, and they had around 25-30 people attend each of the three events. Success was measured by both attendance as well as an evaluation form each attendee was asked to fill out. There is a summary report with more information online here: http://nfoforward.org/community-news/dine-dialogue-series-summary-report
Farm Labor Housing
The Housing Department is working on improved performance measures for Farm Labor Housing.

Library Capital Needs
There was $2.5 million allocated. Where are the rest of the funds being allocated, explain funding criteria?

Funds have been utilized to address a range of facility needs and members of the BOS have been actively engaged in supporting these efforts. Here’s a summary of the Measure A allocations for library facilities beginning with FY 2013-14 through FY 2015-16:

North Fair Oaks Library: $500,000 allocation authorized to address limitations of the existing library space and consider options for increasing the square footage of this county-owned building in order to improve the delivery of library services managed by the city of Redwood City. A local match of $1 for every $3 in Measure A funds is required. This allocation now sits with Public Works who is managing activity associated with this project.

Half Moon Bay Library: $500,000 allocation authorized to assist in the planning of a new library. A local match of $1 for every $3 in Measure A funds is required. San Mateo County Library serves as the pass-through agency for these Measure A funds. The city of Half Moon Bay met the match and drew down on this revenue in FY 2013-14 to partially offset architectural services, community input efforts, and developing financing and fundraising plans. Since that time the project has moved forward and construction is scheduled to begin in 2016 with the new library opening in 2018.

Pacifica Library: $500,000 allocation authorized to assist in the planning for a new library. A local match of $1 for every $3 in Measure A funds is required. The city of Pacifica has been working to solicit community input, complete site assessments, and review project options regarding redevelopment of the 3.5 acre Beach Boulevard site planned to house a new library. San Mateo County Library serves as the pass-through agency for these Measure A funds. The city has met the match. This allocation was made in FY 2013-14 and has rolled forward each year. It is anticipated that the city will draw down on this revenue in FY 2015-16.

South San Francisco Library: An initial allocation of $400,000 was made in FY 2013-14 to assist the city of South San Francisco in remodeling its Grand Avenue Branch Library in order to improve service delivery. A local match of $1 for every $3 in Measure A funds was required. Activities include reconfiguration of the facility, new paint, carpet, data and electrical, shelving, and security and accessibility upgrades. The Board of Supervisors subsequently allocated an additional $500,000 for a second round of improvements prioritized by community members. San Mateo County Library serves as the pass-through agency for Measure A funds. The city has met the match and the full $900,000 has been drawn down by the city to support its remodeling efforts.

Daly City Library: $100,000 allocation authorized to assist the city of Daly City in addressing accessibility at its Serramonte Main Library. A local match of $1 for every $3 in Measure A funds is required. The project includes the expansion of the bathrooms so that they are wheel chair
accessible, replacement of the water fountain with one that is ADA compliant, and the addition of automated access for the front doors. San Mateo County Library serves as the pass-through agency for these Measure A funds. In FY 2013-14, the city met the match and the full $100,000 has been drawn down by the city to support its remodeling efforts.

East Palo Alto Library: $500,000 allocation authorized to assist the San Mateo County Library in remodeling the East Palo Alto Library in order to improve service delivery. Activities would include new paint, carpet, shelving, furnishings, and reconfiguration of the facility, which is housed in a county-owned facility. A local match of $1 for every $3 in Measure A funds is required. The San Mateo County Library has met the match. This allocation was made in FY 2013-14 and has rolled forward each year as efforts to identify the scope of this project continue. The Public Works budget includes an additional allocation of $750,000.

**Library Summer Reading**

For Library Summer Reading’s performance measures, which of these are state-required/standard among libraries, and which are specifically made for this Measure A initiative?

The Library reports all performance measures to the State however, the only state-required data is the number of participants in the program.

Why were the FY 2015-16 performance targets reduced compared to prior year actual experience (for example, FY 2014-15 Actual is 85%, but the FY 2015-16 Target is 80%?)

Because of the timing of Measure A funding approval and the 2-year budget process, performance targets for FY 2015-16 were set before actuals were known for FY 2014-15.

Is there a fee for summer learning camps? If so, what is it?

There is no fee.

**CASA**

Is the target for # of foster youth reflect the number of foster youth there currently are in the County’s Child Protective Services (CPS) workload?

Yes, the target is based on the caseload of court dependent children. Services do not extend to voluntary cases.

Request to add total # of CASA volunteers as a performance measure, since Measure A was used to increase the number of CASAs.

The volunteers added and active in the reporting period has been tracked in the Performance Dashboard report as a supporting measure. Please see the Measure A Dashboard.

Request to add # of bilingual CASA volunteers as a performance measure, or at least consistently include in Story Behind Performance.
CASA recruits bilingual volunteers regularly, and recently reported that 18% of volunteers have Spanish proficiency. The Story Behind Performance is the best place to report the recruiting efforts for bilingual advocates.

**What is the max age for youth to qualify for a CASA?**
Advocates have been assigned by the court for non-minor dependents up to age 21.

**Motel Voucher Program**
**How many days does one voucher provide for a motel?**
The length of stay of each family differs. The motel voucher program provides motel stays for families who are homeless. The voucher is not for a specific period of time. The goal is to assist families with moving to a family shelter or other housing as soon as possible, but sometimes it can take some time for an opening in a shelter or another housing option to become available.

**Request to add performance measure for average # of days / length of stay.**
While the measure ‘Average number of days per stay’ can be added, the data will need to be qualified with the response from the question above. It likely will be a metric rather than a measure since the goal is to keep families off a waiting list for shelter or other housing options.

**REEP**
**What is the beginning wage for REEP participants?**
Information is being collected and will be updated on the Measure A Performance Dashboard.

**How many people are released from custody, and how many of these are given jobs on the REEP program?**
The Re-Entry Employment Program takes referrals from Service Connect populations. All clients of Service Connect have been released from custody either from a State facility or a local facility. Eligibility for participation requires that the referred client pass a pre-employment physical and pass a soft skill assessment by the Vocational Rehabilitation Counselor.

There will be reporting on employment status in a semi-annual report. In the last cycle of Measure A funding ending FY 2014-15, REEP placed 22 participants in community jobs.
To: Honorable Board of Supervisors

From: John L. Maltbie, County Manager

Subject: Measure A Oversight Committee’s Annual Report

RECOMMENDATION:
Accept the San Mateo County Measure A Oversight Committee’s Annual Report.

BACKGROUND:
San Mateo County voters in November 2012 passed a half-cent sales and use tax for 10 years officially titled Measure A. This measure passed 65.4 percent (169,661 votes) to 34.6 percent (89,788 votes). The tax took effect on April 1, 2013. Measure A requires the appointment of “a committee to perform an annual audit of the general fund revenues generated by [the] Retail Transactions (Sales) and Use Tax.” The Measure A Oversight Committee is bound by a set of Bylaws and Rules of Procedure (“Bylaws”), which set forth the operating procedures and duties of the Measure A Oversight Committee.

One of the requirements laid out in the Bylaws is for the Committee to present an annual report to the Board of Supervisors with the Committee’s review of the annual audit of receipts, results of the Agreed-Upon Procedures (AUP), and Performance Report for existing Measure A initiatives.

DISCUSSION:
The Measure A Oversight Committee met and completed its review of the results of the Measure A annual audit and AUP performed by the Controller’s Office. Following the approval of the audit and AUP, a subcommittee was formed to discuss the performance measures for existing Measure A programs and initiatives. This subcommittee evaluated each performance measure and recommended new measures for those that were found to be lacking a focus on outcomes.
The full audit, AUP, and Measure A Oversight Committee Performance Report for existing Measure A initiatives and programs are included in this annual report.

**FISCAL IMPACT:**
There is no fiscal impact in accepting this report.
February 23, 2016

Honorable Board of Supervisors,

On behalf of the Measure A Oversight Committee, I present the annual report of the Measure A Oversight Committee for the Fiscal Year 2014-15 funding cycle. The annual report describes the activities of the Committee during this past year and constitutes the Committee’s report on the Measure A Sales and Use Tax revenues for the period July 1, 2014 through June 30, 2015. In addition, the annual report contains the Committee’s recommendations regarding the performance measures used to evaluate the initiatives and programs funded by Measure A revenues.

Sincerely,

(Signed by Committee Chair)

Daniel F. Quigg
Chair, Measure A Oversight Committee
I. Measure A Oversight Committee: Overview of Activities

San Mateo County voters in November 2012 passed a half-cent sales and use tax for 10 years officially titled Measure A. This measure passed 65.4 percent (169,661 votes) to 34.6 percent (89,788 votes). The tax took effect on April 1, 2013. Measure A requires the appointment of “a committee to perform an annual audit of the general fund revenues generated by [the] Retail Transactions (Sales) and Use Tax.” The Measure A Oversight Committee is bound by a set of Bylaws and Rules of Procedure (“Bylaws”), which set forth the operating procedures and duties of the Measure A Oversight Committee.

One of the requirements laid out in the Bylaws is for the Committee to present an annual report to the Board of Supervisors with the Committee’s review of the annual audit of receipts, results of the Agreed-Upon Procedures (AUP), and performance measure recommendations for existing Measure A initiatives.

The Measure A Oversight Committee is comprised of ten Board-appointed community members, two from each supervisorial district. The Committee held meetings in December and January at which County staff presented information regarding the programs and initiatives funded by Measure A revenues and the methods used to track and measure the performance of those programs and initiatives. At its December 3, 2015 meeting, the Committee was presented with the Controller’s report on Measure A funds and a detailed performance report of each funded initiative through the end of the fiscal year ending June 30, 2015.

II. Audit

Section 5.150.140 of the Measure A ballot states that “within 60 days of the Operative Date, the Board of Supervisors will designate, by resolution, a committee to perform an annual audit of the general fund revenues generated by this Retail Transactions (Sales) and Use Tax”.

The Committee has ensured that an internal audit of the Measure A revenues received by the County has been completed. In addition, the Controller’s Office also performed agreed-upon procedures on the Measure A expenditures.

The Controller’s audit and agreed-upon procedures are included in the annual report.

III. Performance Measures

Article I, section 1-3 of the Measure A Oversight Committee Bylaws states that the Committee shall “develop recommendations for the County Manager’s consideration regarding appropriate metrics by which the County can assess the impact of Measure A funds on programs and services funded in whole or in part by Measure A proceeds”. In accordance with the Bylaws, the Oversight Committee formed the Performance Measures Ad Hoc Committee to provide recommendations and ask questions about the performance of existing Measure A programs and initiatives that were presented in the Draft FY 2014-15 Measure A Performance Report. The County Manager’s Office provided
responses to the questions asked by the Committee, and those responses were incorporated into the final FY 2014-15 Measure A Performance Report.
DATE: November 20, 2015  
TO: Measure A Oversight Committee  
FROM: Juan Raigoza, Controller  
SUBJECT: Report on Measure A Sales and Use Tax Revenues

Attached is our Report on Measure A Sales and Use Tax Revenues for the County of San Mateo for the period July 1, 2014 through June 30, 2015.

If we can be of further assistance, please contact Irene Levintov, Deputy Controller, at (650) 599-1104 or ilevintov@smcgov.org.

Report on Measure A
Sales and Use Tax Revenues

For The Period July 1, 2014 Through
June 30, 2015

November 23, 2015
TABLE OF CONTENTS

INTRODUCTION ............................................................................................................................................... 1

SECTION I – Internal Audit of Measure A Revenues Received By the County of San Mateo,
California for the Period July 1, 2014 - June 30, 2015 .............................................................................. 2

SECTION II – Agreed Upon Procedures Performed On Measure A Expenditures for the Period
July 1, 2014 - June 30, 2015 ......................................................................................................................... 3

SCHEDULE A - Summary of Measure A Expenditures .............................................................................. 4
INTRODUCTION

On November 6, 2012, the voters of San Mateo County (County) passed by majority vote Measure A, The County of San Mateo Sales and Use Tax Ordinance. Measure A levies a half-cent tax, for a period of 10 years, on the gross receipts of any retailer selling tangible personal property in the incorporated and unincorporated territory of the County. The proceeds are to be used to support general fund services and facilities which include, among others, child abuse protection programs, 911 dispatch services, healthcare services, County parks, fire protection and other safety services, and educational programs and services. Measure A will sunset on March 31, 2023.

In open meetings the County’s Board of Supervisors (Board) identified programs and services that can benefit from Measure A funds. The Board also designated a Measure A Oversight Committee (Committee) as required by the ordinance to ensure the completion of an annual audit of the Measure A sales and use tax revenues generated. Section I of this report fulfills this requirement. In addition to the required performance of an annual audit of Measure A sales and use tax revenues generated, the Committee by-laws ensure the performance of additional agreed-upon procedures related to Measure A.

This report is divided into two sections as follows:

Section I: Internal Audit of Measure A Revenues Received By the County of San Mateo, California for the Period July 1, 2014 through June 30, 2015

The County Controller’s Office Internal Audit Division (Internal Audit Division) performed an internal audit as required by the ordinance of the Measure A sales and use tax revenues generated. The result of this audit is presented in Section I. Additionally the Internal Audit Division performed certain Agreed Upon Procedures. The results of these procedures are included in Section II.

This report covers the period July 1, 2014 through June 30, 2015. All procedures were performed in accordance with the International Standards for the Professional Practice of Internal Auditing established by the Institute of Internal Auditors. This report is intended solely for the information and use by the Committee, the Board, and County management. This report should not be used by anyone other than these specified parties. However, as the County is a government entity, this report is subject to public inspection.
SECTION I – Internal Audit of Measure A Revenues Received By the County of San Mateo, California for the Period July 1, 2014 - June 30, 2015

The Internal Audit Division reviewed State Remittance Advice Forms, the County’s financial accounting system records, and the Comprehensive Annual Financial Report (CAFR) audited by the independent certified public accountants to determine if Measure A sales and use tax revenues received have been recorded in a separate fund in a timely and accurate manner.

Results
No exceptions noted. The Measure A fund (Fund) was established in the County’s financial accounting system. All Measure A monies transmitted by the State from July 1, 2014 through June 30, 2015 were deposited into the Fund. This Fund was not used for any other purpose. We also reviewed the County’s CAFR audited by the independent certified public accountants and found there were no issues reported that relate to the financial activities of Measure A funds.

Total for Fiscal Year 2014-15 $80,598,111

Total for Fiscal Year 2013-14 $75,577,548

Total for Fiscal Year 2012-13 $4,397,205

Total $160,572,865
SECTION II – Agreed Upon Procedures Performed On Measure A Expenditures for the Period July 1, 2014 - June 30, 2015

1. Reviewed Board Resolutions to determine if the amounts to be funded for each initiative by Measure A proceeds have been approved by the Board through the County’s budget process.

   Results
   No exceptions noted. The Board approved each Measure A initiative and funding amount by resolution. Schedule A lists all Board approved initiatives and budgeted amounts.

2. Reviewed internal invoices representing departmental reimbursement requests and payment records to determine if the distributions made from the Measure A Fund to agencies governed by the Board were made after receipt of an invoice.

   Results
   No exceptions noted. All tested distributions from the Measure A fund were made after receiving invoices. Amongst the thirty-two Measure A initiatives, twenty-six were administered by agencies governed by the Board. Schedule A lists the initiatives and related expenditures that were reimbursed by Measure A monies in fiscal years 2013-14 and 2014-15.

3. Reviewed invoices received from agencies governed by the Board to determine if Measure A monies were used for purposes of the initiative approved by the Board, as evidenced by Department Head and County Manager or their designee’s signature.

   Results
   No exceptions noted. All tested expenditures on the invoices received from agencies governed by the Board are for purposes of the initiative approved by the Board and were approved by the Department Head and County Manager or their designees.

4. Reviewed invoices to determine if the amounts spent were categorized by type of expenditure and then reviewed the County’s financial accounting system records to determine if the expenditures and Measure A reimbursements were properly recorded.

   Results
   No exceptions noted. All tested invoices categorized the amounts spent by type of expenditure and were properly recorded in the County’s financial accounting system.

5. Reviewed Board Resolutions and accounting records to determine if distributions of Measure A funds to agencies governed by the Board did not exceed the Board approved budgeted amounts for each initiative during the fiscal year.

   Results
   No exceptions noted. All of the distributions of Measure A funds to agencies governed by the Board did not exceed the Board approved budgeted amounts for each initiative in fiscal year 2014-15.

6. Reviewed invoices, accounting records, and Board Resolutions to determine if distributions made from the Measure A fund to entities that are not governed by the Board, agree to invoices received from those entities, and have not exceeded the amount legally authorized by the Board.

   Results
   No exceptions noted. All distributions from the Measure A fund equaled the invoice amounts submitted, and did not exceed the amount legally authorized by the Board. The six Measure A initiatives that were administered by entities not governed by the Board are included in Schedule A.

(a) The total fiscal year (FY) 2014-15 Budget of $65,177,775 reported above represents the Board of Supervisors (Board) approved Measure A budget as presented at February 10, 2015 meeting including $48,095,860 in Appropriation Transfer Requests. The adjusted FY 2014-15 Budget totals $76,089,428 per the Budget Reporting and Analysis Support System (BRASS), the County's budget system of record. The difference of $10,911,653 represents unspent appropriations at the end of FY 2013-14 rolled over to FY 2014-15 and timing differences as they relate to the appropriation of approved capital projects.
(b) Parks Department Operations and Maintenance Initiative includes the Natural Resource Management Initiative.
(c) Prevention and Early Intervention - At Risk Children Initiative was approved by the Board under one aggregate amount. Initiatives include Emergency Care Management, COKA Legal Expenses, Parenting Project, Expansion of Mental Health (MHI) Outpatient Services, Expansion of Substance Abuse Treatment, Pre-to Three, Youth Trauma, MHI First Aid, Early Onset Bipolar, Stanista, Youth Outpatient Care, Comm Collage EPA, and COE & Schools.
(d) Mental Health System Care for Adults Initiative was approved by the Board under one aggregate amount. Projects include Respite, SMART, and Jail Alternates.
(e) Core Service Agencies - Performance Management includes Agreements for Clarity IT Support and BiFocus Clarity Human Services.

Executive Summary

The Fiscal Year 2014-15 performance report contains performance data and narratives for the programs and initiatives funded through Measure A for the period covering July 1 – June 30, 2015. Updates can also be tracked on the Measure A performance dashboard at https://performance.smegov.org/measure-a

Based on the performance data reported (excluding programs/initiatives that are still developing their data), 66% of all Measure A goals have either been met (Completed or On Track), or are heading in the right direction (In Progress). More detail on each initiative’s performance targets and actual performance for FY 2014-15 can be found in the report.

The allocation of Measure A follows the County’s two-year budget cycle. FY 2014-15 marks the second full fiscal year of Measure A receipts and spending. During the first two-year cycle of Measure A, programs and initiatives started collecting performance data to track and report progress. There were varying levels of progress made and data provided by each program or initiative, based on their start-up time and on-going refinement of performance measures. The narrative portion found below each performance measure table tells the story behind the data—the successes, challenges and changes along the way, and areas for improvement that will be implemented.

In its FY 2013-14 annual report to the Board of Supervisors, the Measure A Oversight Committee made recommendations to improve performance measures to better reflect results and outcomes for some initiatives. These have been incorporated in this report.

The following table provides an overview of the performance of Measure A programs or initiatives:

**Note:** Please view the narrative background on each initiative to read more about its progress. Some initiatives listed here will not have narrative, as they were budgeted toward the end of FY 2014-15. Those projects will appear in the FY 2015-16 Performance Report.

**On-Track:** Performance targets are being met and the program/initiative is on-track to meet its overall goal.

**In Progress:** Some performance targets have been met, and others have not. There are multiple performance measures per program/initiative. To learn more about the status of those that are In Progress, please see the narrative updates.

**Completed:** The Measure A program/initiative was successfully completed.

</tbody>
</table>

Story Behind Performance
This initiative includes the SMC Public WiFi and Network Upgrade projects.

The first phase of the SMC Public WiFi project was completed with a total of 11 sites. The program was announced publicly, and a new website was created to summarize the program and outline current and potential sites (www.smcgov.org/wifi). Future plans include rolling out 12 additional sites per fiscal year for the next two years. The locations will be based on a number of factors, including how best they match the goals of the program, the feasibility of site implementation, and the efforts and willingness of local partners to participate in the program.

The Information Services Department (ISD) completed the open standard routing protocol (data communication protocol) migration. With the new open standard protocol in place, the County was able to move forward with the Network Upgrade at the five core sites. The implementation planning phase for the Core Network was completed in April. In addition, the design phase of the Wide Area Network (WAN) upgrade was completed successfully; the planning phase for the implementation of the WAN devices was also started. The first core site, 2000 Alameda, was successfully upgraded to the new core switch infrastructure in mid-May, marking a very important milestone in the Network Upgrade project. The Youth Services Center and the HSA location at 400 Harbor were also upgraded to the new network infrastructure this quarter. The two largest core sites which host the County’s Data Centers, Redwood City and the San Mateo Medical Center, are scheduled for the 3rd quarter (January-March).

Open Data Platform and Dashboards (Information Services Department)

<table>
<thead>
<tr>
<th></th>

</tr>
<tr>
<td>Pre- and post-hackathon activity in Open Data Portal</td>
<td>---</td>
<td>---</td>
<td>---</td>
<td>Data Development</td>
</tr>
</tbody>
</table>

*This performance measure is in the process of being changed for the upcoming Measure A cycle to more closely measure the outcome of the Open Data Portal. A measure that will indicate access to data pre-and-post Hackathon is being examined as a potential new measure.
**Story Behind Performance**

The County’s agreement with Socrata, the provider of the County’s open data platform, was extended for another two years through June 2017. New datasets include Public WiFi usage, illegal dumping reports from Report It! SMC, housing statistics, data about foster youth programs, and data from the 2015 homeless census.

Community engagement and outreach continued with the Open Data program participating in open office hours at the County. Additional outreach included a focus group, co-hosted with Thrive, to find out how County non-profit organizations use and aspire to use open government data. The Open Data program, along with staff from the Human Resources Department and the County Manager’s Office hosted a one day event, Hack SMC, where 77 software engineers, designers, and citizens worked to create applications based on the County’s open data and compete for cash prizes. Overall, Hack SMC accessed 72% more rows of data than average for 2015 via the website, but performed 27% below average via application program interface (API) which is an indicator of whether data is being used to build applications.

**County Fire Engine and Vehicle Replacement (Capital Projects)**

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Replacement/upgrade of vehicles done on schedule *</td>
<td>---</td>
<td>---</td>
<td>Data Development</td>
<td>Data Development</td>
</tr>
</tbody>
</table>

*Fire has proposed new measures for this initiative that will show vehicles ordered and placed in service, as well as on-time and on-budget replacement.

**Story Behind Performance**

Purchases of staff and chief officer vehicles have gone more smoothly than fire engine purchases. County Fire has taken delivery of three staff vehicles as of November 2015, with one additional vehicle on order. Two Type I Fire Engines and 1 Type II Water Tender which were ordered in FY 2013-14 will be placed in service by December 31, 2016. An additional two Type I Fire Engines, 1 Type II Water Tender, and one Type I Ladder Truck have been ordered and will be placed in service by June 30, 2017.

County Fire continues to follow the 10-year purchase plan as developed in FY 2013-14. Due to the complexity of the fleet, this plan is continually evaluated and adjusted based on critical need. With the upturn in the economy, fire engine manufactures have received large orders of apparatus and their buildup time has increased. Due to the complexity of designing the appropriate specifications for fire engines and vendor building schedules, delivery of some apparatus has been delayed. Staff has re-evaluated the vendor selection and is currently working on a new specification that will speed up the delivery time once the purchase has been made.

Staff will make purchases in the next fiscal year that will bring the replacement schedule back on track and within budget. A schedule of Fire’s 10-year purchase plan will be made available on the Measure A Dashboard at [https://performance.smcgov.org/measure-a](https://performance.smcgov.org/measure-a)
### Buildings and Facilities Infrastructure Projects (Capital Projects)

<table>
<thead>
<tr>
<th></th>
<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Percent of County facilities with a Facility Condition Index at or below .05</td>
<td>86%</td>
<td>80%</td>
<td>47%*</td>
<td>80%*</td>
</tr>
</tbody>
</table>

* The Facility Condition measure declined in FY 2014-15 from the previous fiscal year as a direct result of updating the database following a re-survey of the portfolio. The FY15-16 target of 80% was set prior to completion of the re-survey, which resulted in lower facility conditions. The FY 2016-17 target will be adjusted downward to reflect the new reality.

### Story Behind Performance

#### Public Safety 911 Dispatch/Emergency Operations/Data Center

The Department of Public Works (DPW) received three responses from the Requests for Qualifications-Proposals (RFQ-P) process for Design Build Entities (DBE) and is currently working with the remaining DBE to confirm the County is receiving best value for this project based on stipulated pricing and ensuring initial design efforts meet County's intent and expectations within the approved California Environmental Quality Act (CEQA) document. Plans for relocating the Redwood City Motor Pool operations to Grant Yard are underway, with estimated completion date of May 2016.

The new dispatch center is being designed with the capacity to provide 911 public safety dispatch services for additional police and law enforcement agencies in the county, over time, as it does now with ambulance and fire.

#### Pescadero Fire Station

A community meeting to discuss site options and progress occurred in May 2015. DPW continues to assist the Board of Supervisors and County Manager’s Office (BOS/CMO) with community outreach efforts and site availability.

#### Cordilleras Mental Health Facility

The Health System has confirmed the programming with the stakeholders as part of the ongoing development of the bridging documents. As a result, design bridging documents are on schedule to be completed in September 2015 with an update to the Board of Supervisors in October, followed by DPW issuing an RFQ-P for DBEs. The CEQA process continues and is projected to be completed in early 2016.

#### Fair Oaks Library/Human Services Agency (HSA) Remodel

Redwood City Library is currently working with Huntsman Architects on remodel of the training room (approx. 600 sq ft) offered by the Human Services Agency (HSA). In the meantime, HSA needs to do some additional renovations before turning over the space to the Library for their expansion. DPW and HSA will meet internally to discuss the timeline for the HSA renovations to establish the library expansion schedule.

#### Sustainability Projects

Given the success of the two pilot installations (hand dryers and electrical vehicle charging stations) and approval of additional funding, installation of additional charging stations has been scheduled for late September. Additional installation of multiple hand dryers is under feasibility and design review.
Environmentally Conscious Community

**Parks Department Operations and Capital Projects (Parks Department)**

<table>
<thead>

<th></th>
<th></th>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td># / % of Parks projects completed on-time and on-budget</td>
<td>19 / 32%</td>
<td>---</td>
<td>34 /45%</td>
<td>50 / 50%</td>
</tr>
</tbody>
</table>

**Story Behind Performance**

Parks had 78 projects scheduled for the fiscal year, and completed 34 projects. The remaining 44 projects will be carried over and completed in FY 2015-16. The remainder of the Measure A funds was spent on salary and benefits associated with seven positions and their associated operating costs. These positions will be funded by the County General Fund starting in July 1, 2015. Measure A funds were also used to purchase equipment needed for the maintenance of park facilities and two automated pay stations to accept park entry fees at the Coyote Point Recreation Area.

Drought and weather conditions, availability of staff resources due to needs in other non-Measure A parks projects, and the recent rotation of Park Ranger IVs (Supervisors) throughout the Parks system, could result in a few projects being rolled over to the following fiscal year.

Healthy and Safe Community

</tr>
</tbody>
</table>

* County patients include CareAdvantage, Medi-Cal, HealthWorks, Access and Care for Everyone (ACE), Healthy Families, Healthy Kids

**Story Behind Performance**

On July 23, 2013, the Board adopted Resolution No. 072695, which authorized an agreement with Seton Medical Center and the Health Plan of San Mateo to continue providing safety net services to low-income county residents for the term of October 1, 2013 through June 30, 2014. There were several amendments, the last of which extended the agreement to June 30, 2015 in order to assist Seton to continue to deliver safety net services at current levels while the Daughters of Charity continued efforts to sell their system.
### Prevention and Early Intervention – At Risk Children (Health/Human Services Agency)

</tr>
</tbody>
</table>

---

1. Data is based on Parent Project students that have improved behavior related to truancy, suspensions, and expulsions; this was a 15 household sample out of 101 parents graduated and at 6 month follow up.
2. Benchmark standards are being developed by the County and for these measures the interim standard used was 3% variability based on trend with the target in increments of 5.
3. The target was lowered since the target was not met in the previous reporting period and the change is based on an increment of 5.
4. So far for the current Fiscal Year 15/16 the numerator is 47 students.
<table>

**Story Behind Performance**

**Parenting Project**

A total of 439 parents have participated in the program since September 2013 and 339 of those parents graduated (77%). Of those who graduated, 96% reported increased satisfaction with their parenting skills and involvement in their child's life. At a six month follow-up, 87% reported fewer attendance problems for their children.

**Mental Health First Aid**

Since October 2013, Youth Mental Health First Aid (YMHFA) has trained and certified 917 individuals. When asked at a six-month follow-up, 92% of those certified reported an increased ability to recognize signs of mental illness in youth and 90% say they are able to identify ways to help a young person with mental health problems. In addition, 97% of participants who later found themselves in a real-life situation involving a mental health problem with a youth reported they actually applied the skills learned in the training.

**Coordination with Schools**

The new Director of Safe and Supportive Schools has participated in program planning activities with the Behavioral Health and Recovery Services Division. Partnerships were developed with four schools, slightly under the goal of six. An additional four schools will be added for FY 2015-16.

**Expansion of Mental Health Outpatient Services**

Behavioral Health & Recovery Services is meeting the goal of offering prompt services to youth clients with new staff in place and serving clients. In FY 2014-15, 64% of new youth clients were seen for a second appointment within 14 days of their first appointment and had a third and fourth visit within 30 days of the second visit. This strict definition of “engaged” in services produces a conservative result.

<sup>5</sup> To produce the numerator, this data was re-run and it produced a lower result than originally reported.

<sup>6</sup> This target was raised because there is confidence that a higher target is achievable now that the program is fully staffed.
because it excludes missed appointments, phone calls, or emails – which do not represent appointments and could inflate the result - and it does not reflect services for youth attending Therapeutic Day School (TDS), Canyon Oaks Youth Center, Youth Services Center Diversion, or out-of-county providers because youth are compelled to attend appointments in these instances. Therefore, this restricted measure most accurately reflects the ability of the division to voluntarily engage youth that result in positive outcomes.

Expansion of Substance Abuse Treatment
HealthRight 360, a new facility for youth substance use disorders (SUD) outpatient treatment, opened its doors in June 2015 in San Mateo. The program is actively working on finding a second location in East Palo Alto, but there have been numerous hurdles. A new contract began with Thunder Road Adolescent Treatment Centers (TRATC) to continue providing residential treatment services to existing clients while additional work is continuing to be done to increase overall capacity.

Emergency Case Management
The Youth Transition Assessment Committee (YTAC) began serving youth in July 2014 and was fully staffed as of August 2015. During FY 2014-15, 137 out of the 225 youth who were admitted to Psychiatric Emergency Services or PES (61%) received a face-to-face service by YTAC. This represents a substantial increase over the baseline of 37% of youth receiving a face-to-face service and, now that it is fully staffed, the program is on track to meet its target of 70% for FY 2015-16. The additional clinicians provided via Measure A funds has allowed the team to double client capacity in the program, increasing the number of transitional age youth (TAY) served at a time from 50-60 to100-120.

Trauma Related Services for Youth
Nine youth have been reassessed using the neurosequential model of training (NMT) after receiving intervention services. Of these clients, 100% showed improvement in all key areas of functioning: self-regulation, sensory integration, relational, and cognitive. In addition, 98 new baseline assessments were completed which will result in a larger population for reporting reassessment results in FY 2015-16.

Youth with Early Onset Bi-Polar Disorder
Throughout FY 2014-15, there were steady increases in the number of youth in the Bipolar Disorder Early Assessment and Management (BEAM) program who were screened, assessed, and treated for bipolar disorder. In total 23 youth in the BEAM Program were treated.

Pre-to-Three Partners for Safe and Healthy Children Enhancement
Referrals from home visiting programs to Behavioral Health and Recovery Services come from three home visiting programs within Family Health Services: Pre-To-Three, Black Infant Health, and Field. In FY 2014-15, there were 166 referrals.

East Palo Alto School, Police, and Community Collaboration
In June 2015 the Behavioral Health Advisory Group Ambassador Team (BHAGAT) trained nine people in Youth Mental Health First Aid (YMHFA) and 100% of those trained indicated an increase in knowledge of how to recognize signs that a young person may be dealing with a mental health challenge or crisis. Additional trainings will be held at future dates. In addition to training others in YMHFA, BHAGAT staff is on campus at their pilot program, the Ronald McNair Academy school site, five days per week bridging relationships among schools, police officers, and affected students and their families. Through the Parenting Project, which provides intensive parent training and support for addressing emotional health and other problems that come up for parents of adolescents throughout 20 school
districts, the percent of students exhibiting positive student behaviors has increased to 92%. In addition, BHAGAT has provided outreach and short-term intervention support for 20 families of children who were referred for services.

**Story Behind Performance**

The majority of the funding for this initiative is for the purchase of a Respite Center to be called Serenity House. Locating a facility for the Respite Center was difficult for a variety of reasons. In the Spring of 2015, it was decided to use a building located on the Health System campus on 37th Avenue in San Mateo. Renovations are expected to be completed by Summer 2016. As a result of this delay, some of the performance measure targets included in the original budget submission have not been achieved.

The program has made progress on the percent of inmates on misdemeanor charges with mental health issues who are released within six days. The original target was 90%. 70% of inmates were appropriately released within the six day timeframe. This has been achieved by quickly identifying inmates with mental health needs upon entering custody and then connecting the clients to appropriate supportive services upon release from jail. FY 2015-16 should reflect further improvement as the initiative is now fully staffed.

</table>

* Since the clinic was launched in March 2015  
**This number represents the cost of the mobile clinic; see narrative for change in approach of providing Coastside Medical Services.  
***This represents start-up year; amount includes all program costs, including salaries and benefits for clinic staff, Puente Health Promotion staff, medical tools and supplies, office expenses and information systems.

Story Behind Performance
The initial model for expanding health care services to patients in the Coastside region was based on a mobile clinic. After releasing a Request for Proposals (RFP) to solicit mobile health van vendors, it became apparent this model was not the best option for providing care in the remote areas of the coastside due to the rough terrain and size of the vehicles. Subsequently, San Mateo Medical Center and Puente de la Costa Sur collaborated to define an alternative service model consisting of two teams. The first team is made up of a Patient Services Assistant, Medical Assistant, Registered Nurse, and a Physician conducting weekly clinics at Puente’s office in Pescadero. Since the clinic was launched in March 2015, there have been 163 patient visits.

In FY 2015-17, the clinic will also explore the need for adding a second team which would visit farms in the region to identify patients who need to be brought into care.

A review of patient data shows that the mammogram target for FY 2014-15 (77%) was not met only because patients who met the criteria for screening had already received mammograms. This is attributed to previous outreach from various grants at the San Mateo Medical Center (SMMC) main campus which focused on breast cancer screenings and assisting women in high risk demographic categories in obtaining a mammogram.

Cost per patient will be calculated starting in FY 15-16. FY 14-15 was a start-up year which had many different service delivery models resulting in an inaccurate baseline.

*The Coastside Emergency Corps is made up of 119 members, but not all members are CERTs. This measure represents the Coastside Emergency Corps, which includes CERTs.

**The Coastside Response Coordinator is in the process of creating new performance goals that will better reflect the work being done in the community.

Story Behind Performance
The Coastside District Coordinator continued to provide training to the 118 volunteer Coastside Emergency Corps members in preparation for an upcoming winter storm exercise in September 2015*. The Coordinator has completed the Tsunami Ready report for the City of Half Moon Bay and the unincorporated county areas of the coast. Both reports have been reviewed and accepted by the National Weather Service. Ten Emergency Preparation presentations were made to a variety of community groups, each 2 hours in duration. The Coordinator continues to produce and distribute emergency preparation literature in English and Spanish throughout the Coastside Zone; chair the monthly South Coast Emergency Group meetings (which began as PMAC Safety Committee meetings, but quickly expanded to include members from La Honda, San Gregorio, Loma Mar, and the South Skyline region); issue SMCAlerts in English and Spanish to notify the public of monthly Emergency Coastal Siren testing; handle media interviews, twice on KHMB 1710 AM Radio (available for listening in their podcast archives) and several times by the HMB Review newspaper. The Coordinator also organized and chaired the very first-ever Tri-County Office of Emergency Services (OES) Summit meeting, with OES staff from Santa Clara, Santa Cruz and San Mateo Counties present.

On November 23, a Winter Storm Weather Briefing by the National Oceanic and Atmospheric Association (NOAA) Hydrologist, Dr. Mark Strudley, will be hosted along with a Red Cross Response Update class for CEC members as well as public sector emergency managers. Sixty participants are expected for this 2-hour event.

*The Coastside Emergency Corps Winter Storm Exercise was successfully conducted on September 26, 2015, after months of planning by the Coastside Coordinator. In all, 86 people participated, including representatives from OES, CHP, Sheriff’s Patrol, Coastside/CalFire, CalTrans, City of
Half Moon Bay, Coastside Water and Sewer, County and city public works, County Manager’s Office, PG&E, Peninsula Humane Society, two ham radio clubs, and CEC members. The CEOC was activated and staffed, as was the Operations Area EOC in Redwood City in support of the exercise. Three Coastside shelters were opened and staffed, three CEC Field Teams were deployed to assist with mock evacuations, first aid and damage assessment reporting.

</tr>
</tbody>
</table>

* The County Office of Education will be adding additional staff hours to work on data collection around Safe Schools work.

**Story Behind Performance**

In the second half of the 2014-15 school year, the School Resource Officers (SROs) increased their presence at the schools, via walk-through of the campuses, and Cyber Safety & Cyber Bullying presentations. Additionally, the SROs have worked with the schools in a middle school mentorship program and increased involvement in the rollout of Big 5 emergency drills and training. The Big 5 is a standardized set of school emergency guidelines created by the San Mateo County Office of Education with extensive input from the San Mateo County Sheriff’s Office and local police departments, Office of Emergency Services and educators. They include Shelter in Place, Secure Campus, Lockdown/Barricade, Drop-Cover-Hold On, and Evacuate. The SROs are also involved in lunch-time Sheriff’s Activities League (SAL) soccer program. For FY 2014-15, SROs spent an average of 36 hours per week in the schools.

Story Behind Performance
Redi-Wheels provides accessible, pre-scheduled, origin-to-destination transportation to people who are unable to use SamTrans bus service due to their disabilities or disabling health conditions. Currently there are over 8,000 registered Redi-Wheels customers, with over 2,000 unique individuals taking rides each month.

There are 79 Redi-Wheels branded vehicles of various types that are used in the county. In addition, Serra Cab provides supplemental service using their own vehicles – many of which are wheelchair accessible. The Redi-Wheels branded vehicles include a mix of small wheelchair-accessible “cutaway” buses and minivans owned by the District, as well as some sedans owned by the contractor.

North Fair Oaks General Plan Implementation (Planning and Building)

Story Behind Performance

**Middlefield Road Redesign**
The County contracted with AECOM to develop a detailed design for the Middlefield Road Streetscape Redesign in North Fair Oaks. A number of outreach and engagement efforts have been organized to gain participation from residents, local business owners, and other community stakeholders.

**Public Art Workgroup**
The Public Art Workgroup meets monthly to plan public art projects in North Fair Oaks, and provides recommendations to the North Fair Oaks Community Council. In recent months, the public art workgroup worked closely with the North Fair Oaks Community Council, the County of San Mateo, and community members to bring a number of public art projects to life in the photos below. Pictured below are four entrance sign sculptures, three utility box murals, and photos from the first North Fair Oaks Art Walk event.

**Zoning Workgroup**
The Zoning Workgroup, made up of community residents, business owners, and other stakeholders, formed to make changes to the current zoning regulations based on the vision of the North Fair Oaks Community Plan. Two community meetings were held to gather input on the first phase of zoning changes, which focused on neighborhood mixed use zoning along Middlefield Road between First Avenue and Eighth Avenue. Review of zoning changes in phase 2A began in October 2015. The workgroup started discussing the second phase of zoning changes along El Camino Real and Fifth Avenue in North Fair Oaks.

**Dine & Dialogue Series**
Over summer of 2015, the North Fair Oaks Forward team organized three dialogue events where community members came together to enjoy a casual dinner, learn about the featured topic, and discuss with each other their hopes and ideas for the future of North Fair Oaks.

The summer Dine & Dialogue Series in 2015 was held at the Fair Oaks Health Center and food was provided by a local catering business in North Fair Oaks, Redwood Catering. There was no charge to attend the event, and they had around 25-30 people attend each of the three events. Success was measured by both attendance as well as an evaluation from each attendee was asked to fill out. There is a summary report with more information online here: [http://nfoforward.org/community-news/dine-dialogue-series-summary-report](http://nfoforward.org/community-news/dine-dialogue-series-summary-report)

**Park(ing) Day**
On September 18, 2015, the North Fair Oaks community participated in the international event known as Park(ing) Day, where parking spaces are temporarily transformed into mini parks for the day.

**Neighborhood Response Team**
The County organized a multi-departmental effort to coordinate and address a variety of code compliance issues in North Fair Oaks. Dumping of trash on public and private property along with blight complaints from single family home's front yards are the most common complaints. Non-permitted structures such as illegal structures, fences and other construction where no permit was obtained and the structures are not to code are other common violations.
Library Capital Needs (County Library)

*No projects have yet been completed. Please see narrative below for progress made.

Story Behind Performance
The budgeted Measure A funding for FY 2013-14 and FY 2014-15 for the Library Capital Needs Initiative was $2,500,000. The following funding has been distributed: South San Francisco $400,000, Daly City $100,000, and Half Moon Bay $500,000. Remaining funds support projects at the East Palo Alto Library ($500,000), North Fair Oaks Library ($500,000) and Pacifica Library ($500,000).

City of Daly City: Serramonte Library
Daly City Library: $100,000 allocation authorized to assist the city of Daly City in addressing accessibility at its Serramonte Main Library. A local match of $1 for every $3 in Measure A funds is required. The project includes the expansion of the bathrooms so that they are wheel chair accessible, replacement of the water fountain with one that is ADA compliant, and the addition of automated access for the front doors. San Mateo County Library serves as the pass through agency for these Measure A funds. In FY 2013-14, the city met the match and the full $100,000 has been drawn down by the city to support its remodeling efforts.

San Mateo County Library JPA: East Palo Alto Library
$500,000 allocation authorized to assist the San Mateo County Library in remodeling the East Palo Alto Library in order to improve service delivery. Activities would include new paint, carpet, shelving, furnishings, and reconfiguration of the facility, which is housed in a county-owned facility. A local match of $1 for every $3 in Measure A funds is required. The San Mateo County Library has met the match. This allocation was made in FY 2013-14 and has rolled forward each year as efforts to identify the scope of this project continue. The Public Works budget includes an additional allocation of $750,000.

City of Half Moon Bay: New Library Planning Activities
$500,000 allocation authorized to assist in the planning of a new library. A local match of $1 for every $3 in Measure A funds is required. San Mateo County Library serves as the pass-through agency for these Measure A funds. The city of Half Moon Bay met the match and drew down on this revenue in FY 2013-14 to partially offset architectural services, community input efforts, and developing financing and fundraising plans. Since that time the project has moved forward and construction is scheduled to begin in 2016 with the new library opening in 2018.
City of Pacifica: New Library Planning Activities

$500,000 allocation authorized to assist in the planning for a new library. A local match of $1 for every $3 in Measure A funds is required. The city of Pacifica has been working to solicit community input, complete site assessments, and review project options regarding redevelopment of the 3.5 acre Beach Boulevard site planned to house a new library. San Mateo County Library serves as the pass-through agency for these Measure A funds. The city has met the match. This allocation was made in FY 2013-14 and has rolled forward each year. It is anticipated that the city will draw down on this revenue in FY 2015-16.

City of Redwood City: Fair Oaks Library

$500,000 allocation authorized to address limitations of the existing library space and consider options for increasing the square footage of this county-owned building in order to improve the delivery of library services managed by the city of Redwood City. A local match of $1 for every $3 in Measure A funds is required. This allocation now sits with Public Works who is managing activity associated with this project.

City of South San Francisco: Grand Avenue Library

An initial allocation of $400,000 was made in FY 2013-14 to assist the city of South San Francisco in remodeling its Grand Avenue Branch Library in order to improve service delivery. A local match of $1 for every $3 in Measure A funds was required. Activities include reconfiguration of the facility, new paint, carpet, data and electrical, shelving, and security and accessibility upgrades. The Board of Supervisors subsequently allocated an additional $500,000 for a second round of improvements prioritized by community members. San Mateo County Library serves as the pass-through agency for Measure A funds. The city has met the match and the full $900,000 has been drawn down by the city to support its remodeling efforts.

Bicycle and Pedestrian Coordinator (Office of Sustainability)

<table>

<td>20</td>
<td>48</td>
<td>40</td>
</tr>
</tbody>
</table>

Story Behind Performance
This second year of the Active Transportation Coordinator position has seen increased requests for information about bicycling, walking, and transit. Public requests during FY 2014-15 included requests for bicycle route advice, bicycle maps, and recommendations for local development of improved walk routes and facilities. During the course of the year, the Active Transportation Coordinator was able to increase participation in educational events through presentations, publicity, and volunteer engagement. For example, Bike to Work Day publicity was augmented with additional publicity around the county for Bike Month events all month long. Bike to Shop Day increased retail participation by 148% over the previous year. The program exceeded the target for responding to public requests. The target for FY 2015-16 is to respond to 100 requests from the public.

Bicycle education classes provided by the Bay Area Bike Share program were conducted quarterly with an average attendance of eight adults per class. Bicycle skills information distributed through tabling at community events resulted in increased awareness of traffic rules among residents in North Fair Oaks. The program did fall short of the target for increased bicycle use after education. Improved data collection methodology may be needed to increase the accuracy of this data point in future years. The target for FY 2015-16 is that 12% of participants will report an increase in bicycle use after taking classes.

Volunteer participation in the first annual San Mateo County participation in the National Bicycle and Pedestrian Documentation Project allowed the County to collect base-line data on bicycling and walking rates at 22 representative sites around the County. These data will be tabulated and made available through the Open Data portal. The Active Transportation program will continue to conduct annual counts to measure trends over time. The target for FY 2015-16 is 40 volunteer hours donated to Active Transportation program projects.

**Farm Labor Housing Rehabilitation and Replacement (Housing Department)**

<table>
<thead>

</tr>
</tbody>
</table>

*The Housing Department is working on improved performance measures for Farm Labor Housing.

**Story Behind Performance**

Measure A funding from FY 2014-15 was used to establish a program to address the housing needs of agricultural workers in San Mateo County. The program initiated an Agricultural Worker Housing Needs Assessment, contracting with Bay Area Economic and Puente de la Costa Sur to design and conduct work and farmer/rancher surveys.

The needs assessment is ongoing with a findings report expected in 2016. Concurrent with the needs assessment, the Department of Housing, with the assistance of Supervisor Horsley’s office, has been working with agricultural businesses to address urgent housing rehabilitation needs of existing agricultural worker housing units.

To date, two mobile homes have been rehabilitated through the efforts of Rebuilding Together Peninsula, and two mobile homes have been replaced with two new manufactured housing units. An additional rehabilitation project was abandoned when reconstruction efforts found the housing unit dilapidated beyond repair. New plans for that unit are being developed which may include replacement of the structure in its entirety.

Relevant performance measures are being studied to reflect the work done in this Measure A initiative.

*Targets and Actuals will be provided as new programs are implemented. See narrative below for more information on progress.

**Story Behind Performance**

Four school districts in the county with below-average third-grade reading outcomes and the capacity to improve them have been selected as the first cohort of communities to receive grants as part of The Big Lift.

- Cabrillo Unified School District
- La Honda-Pescadero Unified School District
- Jefferson Elementary School District and
- South San Francisco Unified School District

A total of approximately $4.4 million will be awarded to preschool providers and school districts in these communities, representing the first round of grants that will be made over the course of three years to provide high-quality learning experiences from preschool to 3rd grade. Those learning experiences will include high-quality preschool and summer programs, and a focus on reducing absenteeism and engaging parents and the broader community to support learning in school and at home.

**Preschool**

- Serving approximately 800 children - 80 new, 720 enhanced preschool spaces,
- 8 preschool program providers
- 39 classrooms
- Cocoa database in effect - teachers trained, 750 children in the system to date
- Coaches developing Quality Improvement Plans with teachers
- Teachers participating in professional development on teacher-child interactions, effective instructional practices, high-quality learning environments

**Summer**

- RFP released for an evidence based summer learning provider beginning in 2016
Family Engagement
- Launching Raising a Reader Plus program in 21 classrooms in South San Francisco and Pescadero
- Launching the Raising a Reader program in 11 new classrooms
- Training 14 teachers to provide training for parents for Raising a Reader Plus
- Preschools are providing additional family engagement activities

Attendance
- Harvard San Mateo County Attendance Matters Project was fully launched
- 65,000 children in 14 districts are participating
- Baseline data is being collected

</table>

*FY 2015-16 targets were made as part of a two-year proposal that was submitted before FY 2014-15; these will be revisited for future reporting given higher levels of performance in FY 2014-15.

Story Behind Performance
Summer Learning 2015 aims to successfully engage youth and families in the County to reduce the summer slide, address the achievement gap, and support the Big Lift’s goal of increasing the reading proficiency of third graders. This year, the Library introduced a new online participation component that went live June 1st at summerlearners.org and expanded the Summer Learning Enrichment Camps to seven locations in the County, adding camps at Belle Haven and La Honda/ Pescadero. The San Mateo County Library (SMCL) has partnered with the Center for Childhood Creativity to update and develop the curriculum in the Camps to further enhance quality learning time. In addition to all camps offering free lunch meals to youth, grant funding was obtained to include adults, so that families can eat together. SMCL also piloted a program to hire more than 40 youth interns and place them throughout the County to connect families and youth with enriching summer learning library experiences. The interns had the
opportunity to learn valuable skills as they worked directly with communities to support enhanced outreach and expanded facilitation of library learning experiences.

**Court Appointed Special Advocates (CASA) for Foster Youth (Human Services Agency)**

<table>

<td>216</td>
<td>---***</td>
<td>245</td>
<td>---***</td>
</tr>
</tbody>
</table>

*The target is based on the caseload of court dependent children. Services do not extend to voluntary cases.

**The updates correspond to CASA quarterly and cumulative reports. The new measure requires additional data entry by volunteers, so it wasn’t reported prior to FY15-16. The Story Behind Performance alludes to the reason for replacing the former outcome measure.

***Target is not reported as this performance measure is being retroactively reported, and will be reported in the future.

**Story Behind Performance**

This quarter marks the completion of the first 2-year Measure A funding for CASA of San Mateo. During FY 2014-15, 286 children in foster care received CASA mentoring and advocacy. This represents a 6% increase over the previous year. Recruitment brought the total CASA volunteers for the year to 245, a 14% increase over the previous year. An emphasis on providing Spanish speaking mentors improved the matching to children by language. The client demographics illustrate how important it is to strive for diversity: 10% African American; 15% Asian/Pacific Islander; 43% Hispanic/Latina; and 32% White and others.

Mentors spent 10.5 hours monthly with their assigned client in activities facilitating academic performance and personal skill development, including writers workshops, clothing design camp and muni sports leagues; total case hours logged was 17,263. Although it was anticipated that outcomes in improved attendance and academic performance would be measured, delays in rolling out the Foster Focus system in 5 pilot school districts prevented data collection. Instead, tracking of mentoring activities in school academics and facilitating the child's development in personal interests and hobbies will replace the former outcome measures. Evidence based research shows that outcomes improve with stability in home
and school, and developing positive qualities - all of which are monitored and promoted with CASA mentoring.

**Veterans Services (Human Services Agency)**

</table>

**Story Behind Performance**

The needs assessment report has been completed. The County partnered with Applied Survey Research (ASR) to conduct the needs assessment, which included focus groups with veterans, interviews with service providers, and data analysis. On November 5, 2014, the County hosted a Veterans Summit. Veterans, service providers, elected officials, and County staff who participated in the summit heard the preliminary findings of the data analysis and provided their input regarding the highest priorities for enhancing veterans services. The report is available online [here](#) (scroll to very bottom of page, the report is titled PDF - Veterans Needs Assessment 2014).

<td>40</td>
</tr>
</tbody>
</table>

**Story Behind Performance**
Homeless Outreach (HOT) Teams
For the fiscal year, 96 unduplicated individuals were engaged in case management services, and 14 HOT clients transitioned into permanent housing. Since Fall 2013 under Measure A funding, the HOT teams engaged 156 individuals and transitioned 24 to permanent housing. The initiative fell short of the target of 45 individuals placed in permanent housing by June 30, 2015. The challenge for HOT teams in expanded areas of Pacifica, Half Moon Bay, and South San Francisco is helping chronic homeless take the first step. One HOT client who has spent the last year declining all services with HOT Teams finally agreed to give it a chance. Six clients received approvals for their housing vouchers this quarter, making the annual total of 19 housing vouchers approved.

Project WeHOPE – Year-Round Shelter in East Palo Alto
The year round shelter assisted 444 adults with emergency and transitional shelter services in the fiscal year. Occupancy for the 40 beds remained at 100%. Through collaborations with El Concilio, clients in the transitional shelter program successfully obtain housing vouchers and grants for rent deposits. WeHOPE delivers case management and training to reinforce skills for moving into permanent housing. In the coming Measure A funding cycle, WeHOPE will report on program components that increase the client’s resources and income in preparation for permanent housing.

Story Behind Performance
The Emergency Housing Assistance program met its goal of assisting 382 households, accounting for 1,006 individuals, since launching in January 2014. In April 2015 additional funds of $191,250 were authorized for distribution through the end of June 2015. The actual for FY 2014-15 reflects a gap in funding—this gap has been closed and the program will continue with its target of 50% moving forward.

The program works to keep families in housing that are at imminent risk of being homeless while demonstrating a realistic possibility to sustain their housing after being assisted. This has been a challenge as too many low-income families in San Mateo County are struggling. Even after successfully living in this county for years, new clients seek assistance due to job loss, sudden increase in rent, or medical emergency that has impacted a family’s financial stability. Measurement of housing stability for clients receiving 4th Quarter funding will be conducted next quarter and rolled into the total outcome for the Measure A funding cycle. As of this date, 66 known households remained housed 3 months or longer when contacted for a housing status.

**Story Behind Performance**

The second major change request for the Bitfocus Clarity Human Services system was installed in May 2015. New intake screens allow each Core Services Agency to tailor the assessment of new clients and requests. The third change request was released for acceptance testing by the user community. The testing will validate new performance measurement reports. Software releases have met schedule timelines for completion. Overall Satisfaction in a current survey of system users and stakeholders measured 75% positive responses in areas of system availability and support, training processes, and new features implemented in the software.

**Story Behind Performance**

The Motel Voucher Program (MVP) provides short term emergency housing for homeless families while they are waiting to enter a shelter or transitional housing program. The program is administered by InnVision Shelter Network through a contract with the County. Measure A is one of the funding sources that supports MVP to provide services and shelter to homeless families.

**Story Behind Performance**

San Mateo County Department of Parks and the Human Services Agency Vocational Rehabilitation Services (VRS) partnered to create the Re-Entry Employment Preparation (REEP) to help reduce recidivism in the realignment population of individuals released from State prison to San Mateo County. The Re-Entry Employment Program takes referrals from Service Connect populations. All clients of
Service Connect have been released from custody either from a State facility or a local facility. Eligibility for participation requires that the referred client pass a pre-employment physical and pass a soft skill assessment by the Vocational Rehabilitation Counselor. Supportive vocational training offers adults re-entering the community from prison a chance to gain valuable experience in technical skills as well as soft skills.

Working in the county parklands, The Crew as they are known, have performed a wide variety of park maintenance projects essential for visitor safety and park facility upkeep. REEP launched under a matching grant from the Community Corrections Partnership (CCP) grant funding in September 2013, and Measure A funds extend the pilot funded by a matching grant from the Community Corrections Partnership (CCP) so that the program can run through June 2015.

The Re-Entry Employment program missed its goal for the first cycle of Measure A funding of preparing 25 AB-109 adults for competitive employment. Referrals into the program did not achieve expected levels, most likely due to occupational opportunities in a robust economy. At the completion of the program, 14 participants had accepted placement in community or competitive employment.

Quarterly participation rose by two candidates and one client moved into employment as a Refrigeration Fitter earning $20.00 per hour. The Crew continues to maintain parklands, removing 37 hazardous trees, clearing back 10.2 miles of overgrowth on trails, and 3 1/2 acres of vegetation and fuel reduction management. Unfortunately, injury and illness due to exposure to poison oak has become more of a problem recently. A habitat restoration project at Edgewood Park & Natural Preserve to preserve plots of desirable flowers for the butterfly habitat was completed.

There will be reporting on employment status in a semi-annual report. In the last cycle of Measure A funding ending FY14-15, REEP placed 22 participants in community jobs.
