Historical Background

- The Stanford Medicine Outpatient Center was approved in 2006 and opened in 2009.

- The Stanford in Redwood City Precise Plan was approved by the City Council on September 9, 2013.

- Extensive community, planning commission, and city council meetings shaped the final form of the Stanford in Redwood City Precise Plan between 2008 and 2013.

- The Stanford in Redwood City Precise Plan studied, approved, and allows for 228,000 square feet of medical and clinical space.
